Rotary

EVERYTHING YOU NEED TO BEGIN YOUR JOURNEY TO RECOVERY

ShelterBox was based off the back of a simple question: what are the basic things you need to sustain your life, if you've lost everything in an instant?

Our signature green ShelterBoxes are designed to address exactly that.

Filled with essential aid items, our ShelterBoxes have the power to transform lives - they not only create the framework for everyday life, but they also help families begin to rebuild their lives, and find hope for a brighter future, after some of their darkest days.

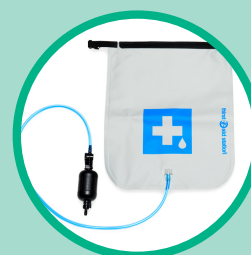

We know that each disaster we respond to is different. That's why all of our ShelterBoxes are customised to meet the exact needs of each community we serve.

A ShelterBox may include:

Solar lights:
so families can maintain routine & stay safe after night falls

Water filters
so families can access safe drinking water

Mosquito nets:
to reduce the risk of dangerous disease & help families sleep better at night

Blankets:
so families can stay warm and comfortable

- ShelterBoxes are stored in strategic locations around the world, so that we can deliver aid as quickly as possible.
- Recently, we've added masks, soap, and hand-wash basins to many of our ShelterBoxes, to help families mitigate the risks of Covid-19.
- A full ShelterBox costs \$1,500 - including all materials, packing, storage, transport and delivery.
